

Put text next to a photo

Use a text and photo block so your words sit beside a picture, on the left or the right.

The text and photo block puts a picture and a paragraph side by side, with the words wrapping around the picture. It suits an About section, a service with a photo, or a short story about your business.

Add the block

1. Log in to your site editor and open the page.
2. In the side panel, click **Add**, then **Elements**.
3. Search for **Text & Image** and drag it onto the page, where you want it.

For more on adding items, see [Add a widget to a page](#).

Fill it in

1. Click the block. A small floating menu appears.
2. In that menu, choose the option for editing the block's content.
3. Under **Image Position**, choose **Left** or **Right**.
4. Click the photo, or click **Replace**, and choose a picture in the picker that opens.
5. Write a short description of the photo in the **Alt text** box. See [Write alt text in plain words](#).
6. Type your words in the **Paragraph** box. You can use bold, italic and underline there.
7. Preview the page, then publish. If you don't see a **Publish** button, tell us and we'll publish it for you.

Change the size and look

1. Click the block and choose **Edit Design** from the floating menu.
2. Change the size or position of the photo, add a border to the photo or around the whole block, or adjust the text style.
3. Turn on **Keep proportions** before you resize the photo, so it doesn't stretch.

Tips

- The photo can link somewhere. In the content settings, choose the link option for the image and pick a page, a popup, an email address or a file. See [Make a photo link to a page or file](#).
- Look at the block in the phone preview. Narrow screens give wrapped text less room.
- Pick a sharp, bright photo. See [Take good photos with your phone](#).

Need a hand?

Email hello@zossoz.com with your business name, the page, the photo and the words, and we'll take care of it. We reply within one business day. It counts as one of your small changes for the month. See [Request a change](#).
