

Show all your locations

Add a list or map of every location you have, with a nearest-location button and a call button for each.

If you have more than one shop, salon or office, one element can list all of them. Visitors see each address, can find the one closest to them, and can call the right place.

Steps

1. Log in to your site editor and open the page, such as your Contact or Locations page.
2. Open the widgets list in the side panel and drag the **Multi Location** widget where you want it.
3. Click it to open its floating menu, then open its content settings. You can also right-click it and choose **Edit Content**.
4. Type the first address, then pick it from the list that appears.
5. Click **Add location** for each other place.
6. Change the words on the **Nearest location** button and the **Multi location title**. Click the eye icon beside either one to hide it.
7. Publish. If you don't see a **Publish** button, tell us and we'll publish it for you.

Set up each location

Pick a location from the list to adjust these things:

- Its address.
- Whether to show its title.
- Extra information, such as parking or opening notes.
- Its own phone number. Turn on **Show Click to Call button** to put a tap-to-call button on that location.
- A link that sends visitors to a page about that location, such as a page with its hours and photos.

Change how it looks

Click **Edit Design** in the floating menu. On the **Item** tab you can style the title, the extra information and the call button.

Good to know

- The nearest-location button only shows on a secure site, the kind with the padlock in the address bar. If it's missing, check your site is on https.
- This element lists places and phone numbers. It won't work out a route between your locations.
- If an address won't show in the list, tell us and we'll help.
- Each place may deserve a page of its own, with its hours and photos. See Ask for a new page.

Need a hand?

Email hello@zossoz.com with your business name and the address and phone number of each location, and we'll take care of it. We reply within one business day. See Request a change.
